The Italian students, their objects and cultures

Lorenzo Galli-Italy

The imagine that I chose represents the Italian victory on the World Cup of 2006. For the Italian supporters it is an important victory because the last victory was in 1982 and the team won in Germany, where there are many Italians.

Iuliana S. -Italy

Hi, I'm Iuliana, and I'm 16 years old. I chose this picture because I really love this Italian monument: the Coliseum. It is the most important Roman Amphitheater, as well as the most impressive monument of the ancient Rome. Its construction was begun by Vespasian in 72 AD. and it was inaugurated by Tito in the 1980s, with further changes made during the empire of Domitian.

Alexei F.-Italy

Hi!

My name is Alexei, I'm 15 years old. I chose this picture because "Ragu" is my favourite sauce in Italian cook. I really enjoy it with every type of pasta. I really hope you'll try and enjoy it like I do!

Are your friends right or wrong about your country? Explain your answers!

As far as the Turkish most repeated word - Erasmus - the programme for travelling and learning across Europe is well-known in Poland. Lots of Polish and Turkish schools participate in it. Great programme and unforgettable experience for the youth to learn languages, culture and tolerance!

For me it is interesting that you mentioned Marie Curie Skłodowska - as in fact, she is of Polish and French origin! But we are proud of her achievements and the Noble Prize Award! I think she is great because she was a woman scientist at the time when women weren't popular as scientists.

Snow is the biggest word and in capital letters! That is funny - we have snow only in winter and sometimes for a short period of time only. Now the winters tend to be milder. We will see this year :) It should be for 4 months but it isn't any longer! I don't think we are such a cold country - for the Polish it would be rather Scandinavia!

You are right - Auschwitz is the place in Poland but it was built by the German Nazi during World War II. It is a horrible place but it is a proof of human cruelty and this is a place that is to remind us about things that should never happen again. Some mentioned Cracow - in fact

The funny thing is that polka is not a Polish dance. It comes from the Czech Republic but everybody confuses it with Poland because of its name. The typical Polish dance, the national one is polonaise which is strange again as the word is of French origin. It may be because our

I agree with most opinions. Poland must be rather cold for French, Italian and Turkish people. We have only 2 months of summer: July and August. That is why we travel to your countries for holidays to get some sun and warm. Polish climate is

Palm Sunday
On Palm Sunday, people in Poland decorate the willow twigs with multicolored ribbons and use different grass and flowers. These 'palms' reach even a few meters in height. There are competitions for the highest palm and for the most beautiful one. When these 'palms' are ready, people go in processions. It is to commemorate the entrance of Jesus to Jerusalem. Some people are dressed in traditional folk clothes.
